YASHADA ENTERPRISES

Precision Industrial Tapes & Electrical Components

PRODUCT CATALOG 2026

FEATURED PRODUCTS

A curated selection of key products from Yashada Enterprises — from insulation tapes and PVC sleeves to busbar supports, DIN rails, and panel hardware.

Steelgrip Insulation Tape

Brand: Yashada

Premium quality Steelgrip brand PVC electrical insulation tape with excellent dielectric strength and moisture resistance.

Masking Tape

Brand: Yashada

High-quality crepe paper masking tape for powder coating, painting, carpentry, and surface protection applications.

Polyester Insulation Tape

Brand: Yashada

High-tensile polyester film tape with excellent electrical insulation properties for transformers, motors, and coil wrapping.

PVC Insulation Sleeve

Brand: Yashada

Flexible PVC sleeving for wire identification, bundling, and insulation protection in electrical panels.

Ferrule Printing Sleeve

Brand: Yashada

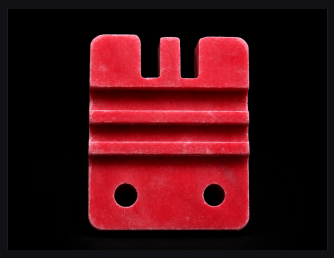

White PVC ferruling tubes for wire end identification and marking in switchgear and control panels.

Busbar Insulation

Brand: Yashada

DMC/SMC busbar insulators for secure insulation and support of busbars in power distribution and switchgear systems.

Finger Type Busbar Support

Brand: Yashada

DMC/SMC finger type busbar supports for secure mounting and insulation of busbars in panel boards.

MCB Channel (DIN Rail)

Brand: Yashada

Standard TS35 DIN rail channels for mounting MCBs, terminal blocks, relays, and other panel components.

Die Cast Panel Locks

Brand: Yashada

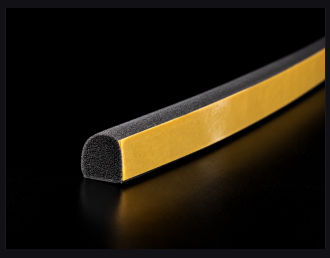

Heavy-duty die cast panel locks for securing electrical enclosures and panel doors with high durability.

Die Cast Panel Key

Brand: Yashada

Die cast panel keys for operating and securing electrical enclosure locks and panel door hardware.

D-Shaped Foam Weatherstrip

Brand: Yashada

D-shaped polyurethane foam weatherstrip gasket for sealing, cushioning, and vibration dampening in electrical panels and enclosures.

ADHESIVE TAPE

Manufacturer and supplier of a wide range of industrial adhesive tapes including surface protection, foam gasket, anti-skid, masking, and polyester tapes.

Steelgrip Insulation Tape

Brand: Steelgrip

Premium quality Steelgrip brand PVC electrical insulation tape with excellent dielectric strength and moisture resistance.

Masking Tape

Brand: Yashada

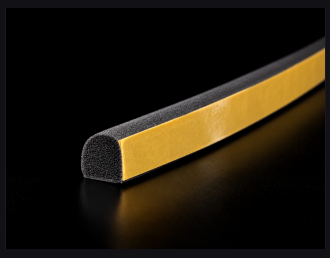

Crepe paper masking tape for powder coating, carpentry, painting, and surface protection applications.

Polyester Insulation Tape

Brand: Yashada

High-tensile polyester film tape with excellent electrical insulation properties for transformers and motors.

D-Shaped Foam Weatherstrip

Brand: Yashada

D-shaped polyurethane foam gasket for sealing and cushioning in electrical panels and enclosures.

Surface Protection Tape

Brand: Yashada

Self-adhesive surface protection tape for safeguarding surfaces during manufacturing, transportation, and installation processes.

CABLE LUGS

Supplier of aluminium and copper cable lugs for reliable electrical connections in power distribution and panel wiring systems.

Aluminium & Copper Lugs

Brand: Yashada

Crimping type aluminium and copper cable lugs for power distribution connections, available in various sizes.

PVC SLEEVES & FERRULE TUBES

Flexible PVC sleeves and white ferruling tubes for wire identification, bundling, and insulation protection.

PVC Insulation Sleeve

Brand: Yashada

Flexible PVC sleeving for wire identification, bundling, and insulation protection in electrical panels.

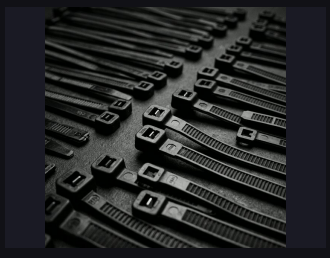

Ferrule Printing Sleeve

Brand: Yashada

White PVC ferruling tubes for wire end identification and marking in switchgear and control panels.

NYLON CABLE TIE

Self-locking nylon cable ties for secure wire bundling and cable management in industrial installations.

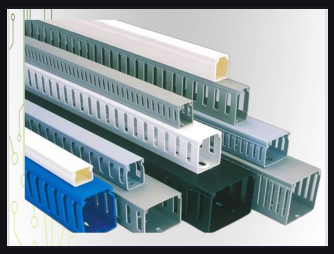

Nylon Cable Ties

Brand: Yashada

High-quality nylon 6.6 self-locking cable ties available in various sizes for professional cable management.

CABLE TRAY

PVC channels and cable ducts for organized cable routing inside electrical panels and enclosures.

PVC Channels (Cable Duct)

Brand: Yashada

PVC wiring channels for organized cable routing inside electrical panels and control enclosures.

BRASS CABLE GLANDS

Brass cable glands with single and double compression for secure cable entry into enclosures with strain relief.

Double Compression Glands

Brand: Yashada

Brass double compression cable glands for secure cable entry with superior strain relief and IP protection.

Cable Glands - S.C.

Brand: Yashada

Single compression brass cable glands for standard cable entry applications in electrical enclosures.

HEAT SHRINK SLEEVE

Woer brand heat-shrinkable sleeves for electrical insulation, strain relief, and cable protection.

Heat Shrinkable Sleeve - Woer

Brand: Woer

Woer brand heat-shrinkable tubing for electrical insulation, strain relief, and environmental protection of connections.

BUSBAR SUPPORT

Finger type busbar supports for secure mounting and insulation of busbars in switchgear and distribution panels.

Finger Type Busbar Support

Brand: Yashada

DMC/SMC finger type busbar supports for secure mounting and insulation of busbars in panel boards.

BUSBAR INSULATORS

Busbar insulators for insulating and supporting busbars in power distribution and switchgear systems.

Busbar Insulators

Brand: Yashada

DMC and SMC busbar insulators for secure insulation and support of busbars in distribution panels.

MCB CHANNEL (DIN RAIL)

MCB DIN rail channels for mounting miniature circuit breakers and other rail-mounted components.

MCB Din Rail Channel

Brand: Yashada

Standard TS35 DIN rail channels for mounting MCBs, terminal blocks, relays, and other panel components.

PANEL LOCKS & KEYS

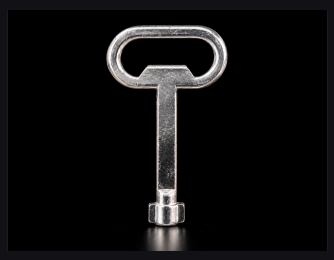

Die cast panel locks and keys for securing electrical enclosures and panel doors.

Die Cast Panel Locks

Brand: Yashada

Heavy-duty die cast panel locks for securing electrical enclosures and panel doors.

Die Cast Panel Key

Brand: Yashada

Die cast panel keys for operating panel locks on electrical enclosures.

CRIMPING TOOLS

Cable lugs crimping tools for precise and reliable cable lug terminations in electrical installations.

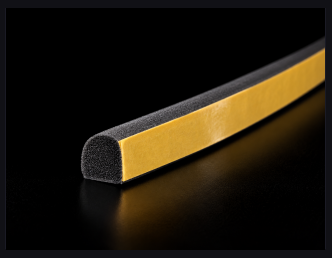

Lugs Crimping Tools

Brand: Yashada

Professional crimping tools for precise and reliable cable lug terminations, available in hydraulic and manual types.

GASKET

Foam and rubber gaskets for edge protection and sealing in electrical panels and enclosures.

D-Shaped Foam Weatherstrip

Brand: Yashada

D-shaped polyurethane foam weatherstrip for sealing and vibration dampening in panels and enclosures.

POLYESTER TAPE

Polyester film tapes with excellent electrical insulation properties for transformers, motors, and coil wrapping.

Polyester Insulation Tape

Brand: Yashada

High-tensile polyester film tapes with excellent electrical insulation properties for transformers and motors.
